

## Snowman Math

A board game to learn about composing and decomposing the number 5.

**Materials:** Dice  
Board  
Yellow and red counters  
Red cards numbered 1 to 5

### Play:

1. Both players roll a dice.
2. The higher roll picks a red card and reads the number.
3. Red card player puts on red counters to match the card.
4. Other player puts on the yellow counters so total of red and yellow is 5.
5. Players tell the 5 combination based on the red and yellow distribution of counters.
6. Repeat until all the red cards are used.

0	1	2
3	4	5
